Jose Garcia-TI2YLL in San Jose is looking for info on R.Pirata, hrd on 12/9 on 1110 kHz. If ya know anything abt this 1, write to Jose in English at Box 7138, 1000-San Jose, Costa Rica.

Undercover R. can now be reached @an490769@anon.penet.fi for QSLs. Pse incl a description of the equipment you're using, reception quality, & the pgm material you hrd. Don't forget your return address if you'd like a QSL.

Look out for R.Waves Int'l from France on 11400 kHz over the 2/2-3 wknd! They're back on & were hrd in NA a few yrs ago...

Sorry abt the last PiPa & the passed hardcopy logs. Typing in the logs is really alotta work, so when I get overwhelmed, the 1st thing to go is the unids, then lately, I've had to cut some of the hardcopy logs.

More news from KIWI RADIO, New Zealand: OP Graham Barclay informed us that he is looking for tapes of stns that he can relay (at no charge of you!) to the listeners in the Pacific, Asia, Australia & beyond! If you think that Graham's output is limited to an itty-bitsy area in New Zealand, consider this: 2982 (!) QSL cards have been issued from January 1st to December 22nd, 1995! Folks that has to be a record! We don't know of any free r. stn that even comes close that number, let alone for 356 days!! And then KIWI managed to be heard in Europe 5 days in a row for Christmas, even 10 times during the past year!! So don't be shy & lets help Graham out w/ many many tapes to be relayed in 1996! The correct address is: P.O.Box 3103, Onekawa, Napier, New Zealand! And while you're at it, KIWI T-shirts can be obtained from the same source for only 20 US \$ postpaid. We're told they make excellent gifts, so why not get one for your love while you're listen to Free Radio! (source:ACE, Jan'96)

All the very best & many many snowmen.....

December 27th via Dutch powerhouse RADIO KORAK (to be repeated soon!) on 1647 kHz & again via OZONE RADIO INTERNATIONAL this Sunday on 6210 kHz! Now we are waiting for all those QSL verifications from that stn.....

GOOD MUSIC RADIO, c/o GMR Towers, Beccles, Suffolk, NR34 9EZ verified a report & here is some information about the stn: Recently the operator built 2 transmitters, 25w & 150w into a centered longwire as an antenna & the transmitter is modulated by a 400w car audio amplifier! They broadcast from the East Coast of Engle & near Lowestoft.

NOTICE! I was gonna beg C.Lobdell into doing more PiPa this Spring & summer, but last week, the division that I work for was handed a lay-off notice (closing down 7/1). I've gotta search for jobs, send resumes, etc. in addition to finishing my projects! So, I'm giving PiPa over to Chris til I get straitened out. I don't think I'll hafta move, but we'll see. Thanks to every1 for the PiPa support recently--some info-packed zines! The maildrop will continue to run fine. I'll still appreciate DX tips, letters, emails, calls, etc., but I just can't spend 10-20 hours every 2 weeks doing PiPa...

Until further notice, send PiPa logs to: piradio@usa1.com (email) or to POB 146 Stoneham, MA 02180. Thanks a ton, Chris! I'll be looking forward to doing PiPa again!

NEWS:

Long skip conditions caused several stations left unhrd in particular areas in Europe! No doubt RADIO CITY using own equipment w/USB mode this Sunday was a big surprise!

UK RADIO now uses a new phone-in-line: UK 0402-350286.

RADIO ZODIAC has lost address for use via ANGEL FM! The temporary address is c/o RADIO MIRAGE @Wuppertal till fixed up permanent address, probably via Wuppertal as well. The reason is ANGEL FM has now closed down because they plan to apply for a local community license & they are unable to be involved w/any unofficial radio for this reason!

KIWI RADIO from New Zealand made it again to Europe, this Sunday on 7460 USB! Graham Barclay also relayed Irish JOLLY ROGER RADIO & US station RADIO FREE MASSACHUSETTS (RFM). Once again Graham asked for more relays to be aired in the South Pacific area!

That's all, not bad eh?! have a nice cold & snowy week 73, Rainer!

Dline for #172: Send logs in no later than 8/19 (c-logs no later than 8/21)

Hey, it's gt to be back! Chris did an awesome job as interim editor! It's a lotta work & I really appreciated it! Activity's been MASSIVE, in spite of the hvy summer QRN.

E-drop: I'm getting stuff together for an email drop. My computer crashed & I'm getting the software reassembled. Whenever it's all straightened out, stns can use the add (prob. pirate@cvn.net). If everything works, stns'll announce the add, people'll send mail to the add (with the stn name in the subject), then I'll forward it to the stns.

Tests: Lotsa sked've been coming in the past few months. FRSH was hrd on their 24-hr test to the world by our own Ed Rausch! *R. Marabu* is testing on 8/10-8/11 on 62?? kHz from ????-???? UTC w/a 4-hr repeating pgm (ack! I forget!)... *R. USA* is testing on 8/18, on 6955 & 15042 kHz, sometime tween 1000 & 1200 UTC?, for svrl hrs... *Live Wire R.*'s been testing on 3925 kHz many Sat nites from abt 2200-0300 UTC w/hundreds of watts, hrd by Mike Prindle & Jesse Rose! I believe that *R. London* is also doing the loop bdest thing one of these wknds, 6400 kHz & some other freqs... *KMCR*'s been testing around 15040 & 6955. On 8/4, they were on from abt 0600-1000 UTC! Hrd by R. Animal for most o/t pgm!... Sorry abt the ?'s here: I had to reformat my hard drive & lost my email w/most of the info!

A. Masyga note: He sez he won't QSL any stn that uses his name as part o/t ID. Obviously, he has nothing to do w/em...

Time to renew PIPa? PIPa via email is free, but it is \$5 for 12 issues (US) for hard-copy. If the number beside your name on the mailing label is lower than #172, your sub's run out & I'll hafta stop sending PIPa! If you just wanna get email PIPa, lemme know. I lose a little \$ doing PIPa, but I'm just trying to minimize my losses! For email folks, I "do" like to know if you wanna stay on the mailing list!

Drop notice! Box 452 is closing! W/increasing Box \$ & decreasing donations, we can no longer afford to keep it operational. However, don't panic--no one will need to find a new maildrop. The new add is: PO Box 1, Belfast, NY 14711 -- & all mail sent to Box 452 will be forwarded for another year...Recently, reports for CSHT have been received @Box 605, but the stn has yet to contact the 'droperator w/any info.

Spcl Nxtl I'm starting a new magazine/nxtl called "Hobby Broadcasting." It will be a how-to zine & will cover everything from cable-access TV to Part-15 bdcstg to college r. to pirate r. Cuz of this, I was going to end PiPa cuz of my time constraints & the many sources of pirate logs. But, I talked to Chris of FRW. I'm gonna try continuing PiPa for a while by merging 2 weeks worth of FRW together & adding logs from the hardcopy-only subscribers. What does this mean? 1. If you send me logs via regular mail or fax, keep doing it. 2. If you send e-mail logs, I'll only add those that aren't already in FRW. You can e-mail FRW at piradio@usa1.com. If you have questions, write, call, e-mail, or fax me!

CHRISTMAS WEEK SKED FROM RADIO FREE LONDON. 6400/3945
"RFL, Radio Free London will be on air Christmas Week from 12/21-12/28 24 HOURS A DAY! Other wimpy ops'll only be on for a few hours on odd days over the Xmas holidays. Not us! You'll have a gay Xmas listening to Tony Randall & hearing the latest vx to RFL, Squeaky John with his over the top brand of humor. Andy Walker'll tell the children what you're afraid to do, tell them there is no Santa Claus. Jodie'll be playing lotsa devil rock mx @this religious time of year & Eric May'll try to be nasty in a bid to fit in. The only nice thing about RFL this Christmas is Terry Philips which means we'll need a bucket handy at the station. When your relatives turn up at the door, tell them to sod-off, I want to listen to RFL (They're only after a free meal and to get out of cooking & washing up anyway).

I also noted the carriers that I hrd &

matched'em with SRS logs. I apparently had

carriers from 6271.53 R.Arena, 6245 Studio

Blue Sky, & 6240.76 R.Perfekt, too. These are

all Dutch or German, so it makes sense that

they'd be weaker than UK/Eire stns (AY,PA)
